

Big Speed! Big Profits! A Big Deal!

Now for as little as \$495/month, you can achieve the ultimate level of wide-format print productivity. Put your future in motion with the DisplayMaker Series XII.

With breathtaking speed that delivers prints in just 2-minutes and the value of our new lease program, you can make profits in just 20 minutes each month. Contact a ColorSpan Representative for lease program details.

DisplayMaker Series XII Features:

12-Printhead Design

Allows multiple configurations for breakthrough speed and productivity.

2-Minute Prints

Achieve incredible productivity from unparalleled speed.

Ultra Wide Gamut Automation Eye

Automates calibration for fast, easy mode configuration.

72" Width

Increases productivity by enormous proportions.

ColorMark+ Option

Allows custom color profile creation and post-RIP color manipulation.

Award-Winning Performance

The new DisplayMaker Series XII is recognized for its showstopping technology.

Multiple RIP Options

Provides user-friendly file processing from both ColorSpan and 3rd Party Solutions.

Available in 72", 62" and 52" models. ColorSpan offers a complete line of media and inks for countless indoor and outdoor applications.

Onyx & DisplayMaker® Series XII
The Forces Unite for High-Production Printing

Now you can combine the high-speed advantage of the DisplayMaker Series XII with the leading print server solution from Onyx Graphics.

"The production-oriented features of Onyx are a perfect complement to the high speed printing options of ColorSpans Series XII printers."

—Neil Baker, Onyx Vice President and General Manager
