

Laminators

Seal™ Laminators make it easy to create dynamic signs and displays from your digital or photographic prints. These laminators are easy to set up. Easy to operate. And easy on your budget. With nine models to choose from, it's easy to find a Seal™ Laminator that's just right for you.

Image 400 C

Cold pressure-sensitive mounting and laminating up to 41"

Image 400 S

Same capabilities as the 400 C plus the versatility of a top heated roller allowing warm or heat-activated mounting and laminating up to 41".

Image 400

Full featured laminator. Top and bottom heated rollers provide the option of cold, warm or heat-activated mounting, laminating and encapsulation up to 41".

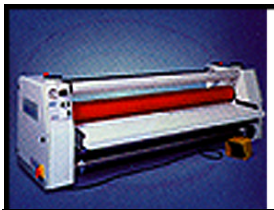

Image 600 C

Capable of pressure-sensitive mounting and laminating up to 61".

Image 600 S

Same capabilities as 600 C plus top-heated roller for warm or heat-activated mounting and laminating up to 61".

Laminators

Image 600

Full featured laminator, for medium and high-volume operations. Top and bottom heated rollers provide the option of cold, warm or heat-activated mounting and laminating and encapsulation up to 61".

Image 62

Specially engineered for easy image finishing. Pre-defined settings for temperature, speed and substrate thickness require little operation experience. Full range of capabilities including hot or cold mounting, laminating and encapsulation up to 61".

Image 5500

Designed for full range, high volume requirements including hot or cold mounting and laminating, encapsulation and image transfer up to 61". Two sets of bi-directional rollers to speed production. Run heat-activated materials from the front and cold pressure-sensitive applications from the back.

Image 6000 Ultra

Full range, heavy duty laminator for high volume hot or cold mounting and laminating, encapsulation and image transfer up to 61" (3M Scotchprint approved).
