

**Does a lot to build your business
while it's doing a lot to build your bottom line.**

You're looking at the incredible array of opportunities brought to you by Graphtec's new SignJet PRO. Because with SignJet PRO you get two production powerhouses in one machine:

Precision Cutter:

With Graphtec's famed precision, record-breaking speed and accuracy.

High Speed Printer:

A big, fast 54" (or 24") wide color inkjet printer for brilliant, exciting, high resolution color graphics and photo realistic images. You can also print and contour cut images. Take a look at the dazzling concepts and creative designs you can produce with this kind of versatility. Your operations will never be the same!

Works with your favorite software:

SignJet PRO works with all of your favorite sign and graphic software packages.

Big ink reservoir:

Lets you keep on printing for high productivity and throughput.

Print large designs:

Print continuous, large format designs up to 52' long with sharp 300 dpi resolution.

SignJet PRO means opportunity!

Some of the many end-uses achieved from the SignJet PRO:

- Backlit Signs
